What's New In R Movie Folder Icon Pack?

Easy to install and customize, R movie folder

icon pack gives you a stunning collection of highly-detailed icons, designed to work with both OS X and Windows environments. This set of icons is designed to replace the default dock folder icons with a really cool collection of icons of the movie folders. Features: • Designed to work with only with dock programs which can use this filetype for the icons of their listed apps.• Available in the PNG format, these icons can be used in any dock program to replace the default folder icons.• Easily added to your dock (requires root privileges).• Files included in the collection are made to be super high-res and optimized to save a lot of system resources, so they can be used with only with dock programs which can handle high-res icons.• Fully customizable. If you don't like the look of the icons or you want to create your own, you can simply replace them with your own icons. To install R movie folder icon pack: 1. First, install the R movie folder icon pack app (first icon set) 2. After the install is finished, go to the main folder of the app and locate the dock folder icons you want to replace. 3. Once you have done that, open the app and select "Add icon sets…" 4. Once you have selected the icons of the app that you want to install, press on the "Add" button to add it to the app's icon folder. 5. Once you have added the icons of the app you want to replace, open the app, go to the folder of the app and find the new folder icons. 6. Drag the icon from the app's icon folder to the folder of the new folder icons you want to add. 7. Once all the icons have been successfully added, press on the

"Install" button to complete the installation process.
